| • University of Karachi | Karachi, Pakistan |
| Bachelor of Science, BS, Software Engineering | 2026 - 2029 |
| • St. Lawrance's Govt Girls Degree College | Karachi, Pakistan |
| Intermediate – Pre Engineering, Grade: A | 2024 |
| • Sir Syed Children's Academy | Karachi, Pakistan |
| Matriculation – Science, Grade: A+ | 2022 |
-

SKILLS SUMMARY

- **Languages:** JavaScript, TypeScript, Python, HTML, CSS
 - **Framework:** React, Next.js, Angular, Tailwind CSS, Node.js, Nest.js, FastAPI
 - **Databases:** MongoDB, PostgreSQL
 - **Tools:** Git, GitHub
-

WORK EXPERIENCE

- | | |
|--|---------------------------|
| ThreatCure (Frontend Developer) | June 2025 – December 2025 |
| <ul style="list-style-type: none">• Built and maintained responsive user interfaces using Angular and Tailwind CSS• Collaborated with backend developers to integrate APIs and resolve UI issues• Delivered a complete Attendance Management System with custom UI, backend APIs, and structured database• Wrote clean, maintainable code with a focus on performance and accessibility | |
-

PROJECTS

Portfolio Website

 [Live App](#)

Built a fully responsive and visually appealing portfolio website featuring project showcases, a contact form, and smooth UI animations. Demonstrates frontend proficiency, component-based design, and modern styling practices.

Elevate by Nike (Nike Clone)

 [Live App](#)

Developed a pixel-perfect e-commerce store from Figma design with dynamic product rendering, shopping cart functionality, and headless CMS integration. Emphasized clean architecture, real-world responsiveness, and user experience.

My Blog Web

 [Live App](#)

Developed a dynamic blog website using **Next.js** and **Tailwind CSS**, featuring multiple post layouts and smooth routing. Emphasized scalable architecture, reusable components, and clean content presentation.

Secure Data Encryption System

 [Live App](#)

Designed a secure web app for encrypting sensitive information and managing login authentication using Fernet encryption and hashed passkeys. Demonstrated strong grasp of security principles and Python OOP.

Info Scrubber & File Converter

 [Live App](#)

Built a tool that scrubs sensitive data from text and converts files across formats (PDF ↔ TXT, CSV ↔ XLSX), enhancing data privacy and accessibility.
